

10 Basic Rules for a Successful Aquarium

Keeping a successful aquarium is easier than you think!

With a regular maintenance schedule and some basic knowledge **you can have the aquarium of your dreams.**

Below you will find 10 rules you should remember to keep a successful aquarium.

Here they are;

1. Provide regular, healthy feeding (2-3x / day)
2. Keep fish populations within tolerable limits
3. Follow a daily, weekly, monthly and yearly checklist (Grab our recommended maintenance schedule on our downloads page, you should have received a link/password to this page when you joined our newsletter)
4. Choose fish that are compatible
5. Don't skimp on your filtration system – [Learn more about filtration here.](#)
6. Use living plants where possible
7. Choose the largest aquarium your budget and space will allow
8. Keep environment stable and well-conditioned
9. Plan your aquarium (Do NOT rush the early stages)
10. Enjoy your aquarium
